

Course: CHEM212 and CHEM211; Introduction to Organic Chemistry 1

Instructors: Laura Pavelka , Pallavi Sirjoosingh, and Danielle Vlaho

Instructors email:

laura.pavelka@mcgill.ca

pallavi.sirjoosingh@mcgill.ca

danielle.vlaho@mcgill.ca

Brief course description:

Chemistry 212/211 aims to provide you with a solid understanding of the properties, reactivity, and applications of hydrocarbons (alkanes, alkenes, alkynes, benzenes) and hydrocarbon derivatives (alkyl halides, alcohols). Our main focus is on understanding chemical behavior in order to predict reactivity, rather than the mere memorization of
