

## STANDARD OPERATING PROCEDURE #605 RODENT IMPORT

---

### 1. PURPOSE

---

This Standard Operating Procedure (SOP) describes the procedures to be taken when a Principal Investigator (PI) requests rodents to be imported from non-commercial or non pre-approved sources to the Comparative Medicine & Animal Resources Centre (CMARC) of McGill University.

Pre-approved sources are the following

4.12. The PI will be notified of the veterinarian's decision.

4.13. Release from quarantine and animal transfer to the appropriate facility will be coordinated by CMARC.

### SOP REVISION HISTORY

DATE	NEW VERSION
2017.03.31	4.2. The PI must ensure that the requested animals appear <b>and justified</b> in the Facility Animal Care Committee approved Animal Use Protocol.
2023.08.14	1. PURPOSE This Standard Operating Procedure (SOP) describes the procedures to be taken when a Principal Investigator (PI) <del>or their designate</del> requests rodents to be imported from non-commercial or non <b>pre</b> -approved sources to the Comparative Medicine & Animal Resources Centre (CMARC) of McGill University <del>or one its affiliated animal facilities.</del>
